

MXV4[®] DRIVING SHOES

Performance footwear designed for ultimate comfort and heel-and-toe grip behind the wheel.

Inspired by the renown MXV4 tire tread design, Michelin footwear designers have created two great new casual shoe styles for performance enthusiasts as well as everyday drivers. Both feature a cutting edge outsole design, hand-sewn leather uppers, padded collars, and a patented, dual-density heel cushioning system. Try a pair of Michelin MXV4 driving shoes – and discover the difference performance footwear makes when you're on the road.

MXV4 Cobra

This sporty athletic style combines leather uppers with single-ply mesh fabric to help your feet breathe and stay dry. A heavy gauge Nubuck heel provides strength and support, and an aggressively patterned Michelin rubber outsole offers superior grip and durability. Inside the shoe an Agion™ antimicrobial liner covers charcoal impregnated memory foam to help prevent odor and provide added cushioning.

MXV4 Belair

Hand-stitched moccasin construction helps the Belair retain its comfort and shape. Features to help keep feet healthy and odor free include an Agion™ antimicrobial liner, a contoured arch support and charcoal impregnated memory foam cushioning. The Michelin rubber outsole has a tread design that provides excellent traction on a variety of surfaces, plus it's shaped to add strength, durability and enhanced lateral support to the shoe.
